

Minutes, Member Meeting, October 11, 2025

Meeting was held at MoF's Restoration facility. Approximately 30 members and guests attended.

CO called meeting to order at approximately 1015. Meeting followed the agenda pretty closely:

The CWB Christmas party was formally announced; to be held on 12/13/25 at the Hilton. Meals \$65 per person, hotel rooms available for members at \$115 per night.

CO gave exposition on his personal experience at and impressions of Air Races held in Roswell this year. Several members who had also attended confirmed, agreed with or disagreed with CO's impressions throughout his exposition. Overall conclusion was that attendees had enjoyed themselves. For next year, CWB will have 2 front row boxes; should have a block of hotel rooms for members at rates less than paid this year; it is anticipated the dates for next year will be Sept 15-20, but official confirmation is pending. OpsO Dan Schoemaker is soliciting applications from members for pylon judge training.

Presentation on Air Museums of Europe (and New Zealand) was delivered by George Steed. The presentation and slides were well received by attendees.

Two newcomers were identified and introduced themselves.

This year's Board of Directors election was announced for January and membership was asked to begin thinking about nominations.

Meeting adjourned at approximately 1215, and members were invited to tour the restoration facility; Board members were requested to stay for board meeting.
